Article 45 Penalties

45.1 The contractor is warned in written form 1 (one) times during the work if the administration is determined that the cold chain is not observed in the sample transportation. For each time it repeats later in the month; the penalty will be applied 002% (two in ten thousand) of the contract value.

45.2 The samples collected from the MHC/EHMC must be received by the contractor until the end of working hours on the same day. During the work period, the first notice of nonconformity detected at monthly intervals is given to the contractor. For each nonconformity detected, the penalty will be applied 002% (two in ten thousand) of the contract value.

45.3 All results of the sample shall be reported for the periods specified in Instructions to Tenderers and Draft Contract Article 1.1. A written warning is given for the first delay detected during work. For each subsequent detected delay; the penalty will be applied 005% (five in ten thousand) of the contract value.

45.4 The past kit will not be used. If it is detected that the used kit is used, 1 (one) times written warning is given to the contractor during the work period. The number of kits used for each subsequent determination is as follows; the penalty will be applied 005% (five in ten thousand) of the contract value.

45.5 In addition, if any penalty is repeated 12 (twelve) times in succession or at different times, the contract should be terminated without the need to any protest.
